Program And Portfolio Management

Program and portfolio management are structures for grouping projects in organizations. As such, they are part of an organization's overall governance structure. Being solely related to project activities, program and portfolio management is a subset of corporate governance known as the governance of project management.

Program and portfolio management - successful organizations

A portfolio is a collection of projects and programs that are managed as a group to achieve strategic objectives. An organization may have one portfolio, which would then consist of all projects, programs, and operational work within the company. It may also establish several portfolios for project selection and ongoing investment decisions.
