Ductless air conditioners and ductless heat pumps, also known as ductless mini split systems, can fit in any space, even where traditional HVAC units don't. With their virtually endless configurations, ductless air conditioners and heat pumps deliver comfort with minimal visual impact.

Ductless AC & Mini Split Systems | Carrier Residential

Although not a new technology, ductless heat pumps are rapidly gaining popularity in the U.S., and why not? Ductless heating and cooling systems can save 30-40 percent off the energy costs of a forced air system. They are the go-to choice for newly constructed houses and additions, as well as those houses with no existing ductwork and which rely upon radiator or electric baseboard heating.

How a Ductless Heat Pump Can Save You Money and Energy
