The Oxford Handbook Of Food

The Oxford Handbook of Food, Water and Society Edited by Tony Allan, Brendan Bromwich, Martin Keulertz, and Anthony Colman Abstract

Oxford Handbook of Food, Water and Society - Oxford Handbooks

The thirty-five handbook chapters confront four major themes in the politics of food: property, technology, justice and knowledge. Ronald Herring's editorial introduction asks how food is political, highlighting contention around the role of market, state and information in societal decisions.

Online Library The Oxford Handbook Of Food Fermentations

The Oxford Handbook of Food History places existing works in historiographical context, crossing disciplinary, chronological, and geographic boundaries while also suggesting new routes for future research. The twenty-seven essays in this book are organized into five sections: historiography, disciplinary approaches, production, circulation, and consumption of food.

The Oxford Handbook of Food History (Oxford Handbooks ...

The book also focuses on cookbooks as an important primary source for historians; contemporary food ethics, ethical food consumerism, and “ethical food consumption”; the link between food and social movements; the emerging critical nutrition studies; the relationship between food and gender and how gender can enlighten the study of food activism; the relationship between food and religion; the debates over food as they have developed within geography in both the English- and French ...

Oxford Handbook of Food History - Oxford Handbooks

"The Oxford Handbook of Food Ethics provides an extensive survey of the growing field of food ethics in its most prevalent areas and aims for an audience that encompasses not only advanced undergraduate and graduate students but also the consumer who is interested in learning more about his or her everyday choices. The editors include work that attempts to answer complex ethical questions about food and the individuals, groups, and institutions that are concerned with food.
